

Hi there!

We wanted to get in touch with you in light of the Dutch Government's announcement on Friday regarding the introduction of new measures to curb the spread of Covid-19 in The Netherlands.

What the Government announcement means for the event

TechEx Europe and all co-located events will be going ahead as planned in compliance with new public health and safety standards.

While the announcement included restrictions on opening hours and capacities in seated events, trade shows were not materially affected.

"At events with a flow of visitors, such as trade fairs, there is no limit to the amount of attendees. These events can take place from 06:00 am until 18:00 pm."

Requirements for travelling to the Netherlands

No changes were made to the current requirements when travelling to and from the Netherlands. This means that the use of a valid corona entry pass, the DCC for example, still applies. Citizens who do not have a DCC and/or are a resident of a country outside the EU and the Schengen area, can enter the Netherlands using an EU approved paper proof of vaccination, vaccine declaration and health declaration form.

Ensuring a Safe Event

Whilst we are able to operate the event as usual, there are many precautions we are taking, which along with guidance will make sure the event is as COVID safe as possible.

- All attendees will have to show a valid Corona Entry Pass. This means that a person is either fully vaccinated, has a valid Covid negative test (valid for up to 24 hours) or has a valid recovery certificate. A valid paper version of the corona entry pass is also accepted. A health check (triage) is also performed. [For more information, please see our COVID-19 entrance policy online here.](#)
- Face mask wearing is at the discretion of individuals
- Sanitisation stations will be present on-site
- We will review the exhibition lay out and ensure it enables safe distancing throughout

Hybrid Format

Much of the content from TechEx Europe will be available online the following week as part of our hybrid event offering. Furthermore, attendees shall be able to network with sponsors, exhibitors and each other via the online event platform.

We take the health and safety of attendees, partners and staff incredibly seriously and have done everything we can to ensure that TechEx Europe is a Covid-safe environment.

We look forward to seeing you at the event on the 23-24 November 2021.
